From: Beverly Adamo  
Director of Administrative Services

**RE: LAVTA Request for Proposals (RFP) for On-Call Zero Emissions Bus Consulting Services #2016-04**

**Addendum Number 1**

This correspondence constitutes official record of the first alteration of a “Request for Proposals for On-Call Zero Emissions Bus Consulting Services #2016-04” issued on March 28, 2016.

This Addendum responds to written questions as follows:

QUESTION	RESPONSE
1. Does LAVTA expect the selected bidder to maintain a local office/personnel in Livermore to perform the requested task work?	No.
2. Does LAVTA have a current 3rd party bus procurement/inspection firm used for your existing vehicles that the selected bidder would need to interface with on this project? If so, can you name that firm?	LAVTA does not have a current 3 <sup>rd</sup> party bus procurement/inspection firm. However, LAVTA does conduct a competitive procurement for the services for inspection of buses that are in the process of being built.
3. Does LAVTA expect the selected bidder to perform any actual architectural and engineering services or just manage the procurement of those services and then manage construction/commissioning?	LAVTA is looking for expert assistance during the procurement process of actual architectural and engineering services and assistance/consulting with construction/commissioning management.

Other than those specifically listed above, no other sections, terms or conditions of the above cited solicitation are being altered at this time. All other sections, conditions and language not specifically cited as altered in this document are still in full and original effect.
