AGENDA

ITEM 4
ACTION REQUIRED
Select a WAAC member to serve on the selection committee for the Comprehensive Paratransit Assessment consultant

BACKGROUND
In late August, the City of Pleasanton released a Request for Proposals (RFP) to bring onboard a consultant to conduct a comprehensive assessment of paratransit services throughout the Tri-Valley. The project management team comprised of LAVTA and City of Pleasanton staff is seeking one WAAC member to participate on the selection committee.

DISCUSSION
LAVTA, in partnership with the City of Pleasanton, is conducting a joint assessment of paratransit services throughout the Tri-Valley. The RFP is included as Attachment 1.

The procurement will involve a selection committee who will be responsible for evaluating and scoring the proposals, as well as possibly interviewing proposers. The selection committee will make a recommendation to select the winning consultant team. The selection committee will include the City of Pleasanton and LAVTA staff, as well as a member of the WAAC.

The proposals are due on September 23, 2016 and therefore, the selection committee will need to make time to review proposals the last week in September. Interviews are expected to take place the first week of October.
Recommendation
Staff recommends the WAAC nominate and select one member to serve on the selection committee.

Attachment 1 – Comprehensive Paratransit Assessment RFP
REQUEST FOR PROPOSAL
CONSULTING SERVICES FOR PLEASANTON PARATRANSIT ASSESSMENT

1. INTRODUCTION

Request for Proposals (RFP)
The City of Pleasanton, in partnership with the Livermore Amador Valley Transit Authority (LAVTA), is soliciting proposals from qualified consultants to conduct a comprehensive assessment evaluating overall organizational, management and delivery effectiveness of paratransit services in Pleasanton, Sunol and the Tri-Valley area as defined in this Scope of Work.

Reporting & Contractual Relationships
The City of Pleasanton will act as the contracting agent for all services provided through this solicitation and will function as the point of contact for all questions related to this solicitation, the selection process and award. The City will hold the Consultant contract. Administrative and billing functions for each agency will be determined and outlined in the final contract with the consultant. Consultant shall work with designated representatives of both agencies in the accomplishment of the scope of work.

Background Information
The City of Pleasanton is a full service municipality located in Eastern Alameda County, roughly 40 miles east of San Francisco; strategically located at the intersections of two (2) interstate highways (I580 and I680). Pleasanton has benefitted from substantial growth of the region over the last 30 years.

Historically an agricultural area, Pleasanton has developed to become a dynamic and involved community making it a highly desirable place to live for all ages. The City of Pleasanton is approximately 24 square miles in size and has become increasingly diverse in recent years. Presently, the population is approximately 74,000, with 10.8% of the population considered a senior (65 or older). The City of Pleasanton’s residential boom is complimented with commercial growth and infrastructure improvements. Developments in the City along with the heritage of the surrounding region have also made it attractive to tourists.

With a staff of approximately 500 employees, the City provides a wide range of services to the public. Currently, the Community Services Department is comprised of 25 full-time employees and an abundance of temporary/seasonal staff, volunteers and numerous community partnerships.
The Community Services Department has long been associated with award-winning programming, quality events and pristine parks/trails. Pleasanton is the only city in the Tri-Valley that provides a transportation service for senior and ADA residents. In addition to providing a Paratransit service, Pleasanton also takes pride in providing services such as the RADD Program (Recreation for Adults with Developmental Disabilities).

Pleasanton Paratransit Services (PPS) provides transportation services for adults age 70 and above and disabled adults 18 years or older and operates Monday through Friday at the Pleasanton Senior Center located at 5353 Sunol Boulevard in Pleasanton. Services currently provided include:

- door-to-door transportation service for residents living in Pleasanton city limits, unincorporated Pleasanton and Sunol;
- fixed route shuttle providing access to the Pleasanton Senior Center, senior living facilities, shopping locations and designated medical facilities.

The Livermore Amador Valley Transit Authority (LAVTA), also known as Wheels, was formed in 1985 under the provisions of the California Joint Exercise of Powers Act, Government Code Sections 6500 et seq. and represents the Cities of Livermore, Pleasanton and Dublin as well as the unincorporated portions of eastern Alameda County. LAVTA is responsible for the provision of the public transit fixed route and paratransit service within an approximate 40 square mile service area with a population of approximately 200,000.

The LAVTA Board of Directors is the governing body which establishes transit policy. The Board is composed of seven (7) members, two representatives appointed from the city council of each member city of Dublin, Livermore and Pleasanton and one member representing the County of Alameda. The Board is organized into two standing committees, namely, (1) Finance and Administration, and (2) Projects and Services. Other committees are appointed for the duration of specific projects only.

The Executive Director oversees the operation of the transit system in accordance with the policy direction prescribed by the Board of Directors and is responsible for the overall administration of the fixed route and paratransit system. At present, the Executive Director is supported by a staff of fourteen (14) employees. Consultants are retained as needed to provide specialized planning, marketing and technical assistance.

LAVTA contracts with a private company, MV Transportation, for the operation and maintenance of the fixed route services and with Medical Transportation Management (MTM) for paratransit services. The services of the private companies were solicited through a Request for Proposals process. MTM operates the paratransit services through a brokerage model.

**Pleasanton Paratransit Services – History**
Senior transportation services in Pleasanton began in 1972 by a local Women’s Club. This organization donated a van and provided volunteer drivers and introduced a service called Dial-A-Ride. This was a free service for Pleasanton residents.

The City of Pleasanton eventually assumed management of the Dial-A-Ride transportation service. This included hiring drivers, purchasing and maintaining buses, in addition to developing and implementing policies and procedures. This service was completely subsidized by the City of Pleasanton.

In 1990, the Americans with Disabilities Act (ADA) federal legislation was adopted. Livermore Amador Valley Transit Authority (LAVTA) was created and became the primary ADA service provider in the Tri-Valley. The City of Pleasanton applied for and received Transportation Development Act (TDA) 4.5 funding from the Metropolitan Transportation Commission (MTC) and Measure B - Alameda County Transportation Commission (ACTC) funding to provide transportation services for Pleasanton and Sunol seniors 60 years and older and ADA certified 18 years and older. The City subcontracted with LAVTA to continue ADA service for Pleasanton and Sunol during the hours that Pleasanton Dial-A-Ride did not operate.

**Re-engineering of Pleasanton Paratransit Services**

1998-1999, a consultant team was hired to review Pleasanton Dial-A-Ride services and provide service alternatives. The Pleasanton City Council voted to continue the paratransit program and increase the general fund allocation. Enhancements were also added, including a name change to Pleasanton Paratransit Services (PPS), extended hours, development of a group trip program, and automated dispatching. Eligibility for paratransit services included all Pleasanton and Sunol residents age 60 and above and ADA certified residents between the ages of 18 and 59. New policies and procedures and a Rider’s Handbook were developed and a PPS Task Force (a consortium of Senior and ADA Paratransit users, Tri-Valley transportation providers, Human Services Commissioner and Community Resources for Independent Living - CRIL) created to help review and recommend current and proposed policies and procedures. The PPS Rider’s Handbook is included as Attachment A. Geographic boundaries were established to provide more efficient trips and limited service locations outside of Pleasanton were identified and approved for necessary medical appointments. An updated Memorandum of Understanding with LAVTA and PPS was developed.

In 2007, a fixed route shuttle service was introduced. This transportation service offers seniors rides from senior living facilities to various destinations such as grocery stores, medical facilities and department stores.

In 2009, Alameda County Transportation Commission, a funding source for PPS, established new criteria for minimum service standards, which increased rider eligibility from age 60 to 70.

**Funding**

Currently a fee structure is in place for users of the service. In addition to fare revenue, PPS receives capital and operating funding assistance from a variety of sources: City of Pleasanton General Fund, Alameda County Transportation Commission (ACTC), Measure B (county sales tax through 2022) and Measure BB (30 year transportation county sales tax), and the Metropolitan
Transportation Commission (MTC). Funding for the Downtown Route comes from a Measure B Gap Grant, scheduled to expire on June 30, 2017.

Transit policy is established by City of Pleasanton City Council. The Recreation Supervisor at the Pleasanton Senior Center oversees the administration and implementation of approved policies and procedures of Pleasanton Paratransit Services.

**LAVTA Paratransit History**

LAVTA operated paratransit services as a contract operation similar to its fixed routes services, (where the agency owned the vehicles and directly contracted for the operations and maintenance) until 2011 when the agency switched to a brokerage model. The first contractor, American Logistics Company (ALC), provided the service for nearly three years. MTM was awarded the most recent contract in 2014, and began providing service on May 1, 2014. MTM’s base contract expires on June 30, 2017 and there are four, optional one-year extensions. MTM began the contract utilizing Medi-Routes to schedule, dispatch and monitor the service. MTM switched to Trapeze Novus/TripSpark on April 18, 2016.

LAVTA provides ADA services throughout the Tri-Valley regardless of location of fixed routes. LAVTA provides paratransit services during the hours that Route 10 operates 7-days a week. LAVTA currently charges below the maximum fare allowed by ADA ($3.50 per passenger, 1.5x the cost of a fixed route fare). LAVTA’s current Paratransit Policies are included as attachment B.

LAVTA receives capital and operating assistance from a variety of sources, including the Federal Transit Administration (FTA) of the United States Department of Transportation, the State of California Transportation Development Act (TDA), State Transit Assistance (STA), Regional Measure 2 (RM2) funds, Measure B and BB funds, and a number of other funding sources. LAVTA does not receive Measure B or BB funds for paratransit services in Pleasanton; however, approximately 15% of LAVTA’s paratransit trips are provided to Pleasanton residents. LAVTA provides Paratransit services for Pleasanton residents during non-operating hours or when PPS is at capacity.

**2. Scope of Services**

The City of Pleasanton and LAVTA seek a qualified consultant to conduct a comprehensive assessment of the paratransit system and non-fixed route services provided within Pleasanton, Sunol, and the greater Tri-Valley area. The two agencies have been faced with unique challenges over the past year – PPS has seen ridership stagnate or decrease, and LAVTA has seen paratransit ridership gains of nearly 30% over fiscal year 2015. Both agencies are facing increasing costs that are unsustainable in the long term. The primary goal of this assessment is to determine if greater efficiencies and effectiveness of specialized transportation services currently delivered can be better achieved by alternative means, including partnership, collaboration, or consolidation opportunities. Additionally, the selected consultant will analyze the current paratransit services operations and recommend short and long term service modifications for both agencies. These
alternatives should not be limited to changes in service provisions, but also include options to improve the passenger experience, and to bring innovation in transportation opportunities and technology to both systems.

ITEM 6
SUBJECT: WAAC Bylaws

FROM: Kadri Külm, Paratransit Planner

DATE: September 7, 2016

**Action Requested**
Forward the recommendation to update the WAAC bylaws to LAVTA’s Board of Directors.

**Background**
At the July meeting the WAAC reviewed the committee bylaws and recommended several updates to the bylaws.

**Discussion**
Below are the updates WAAC members recommended:

- Adding Measure BB information to the definitions:
  - **SECTION 2.9.** “ALAMEDA COUNTY MEASURE B” refers to local funding for paratransit service generated by the one-half percent (0.5%) transportation sales tax in Alameda County. Collections for the sales tax authorized by Measure B will be in effect for 20 years, beginning on April 1, 2002 and extending through March 31, 2022.
  - **SECTION 2.10.** “ALAMEDA COUNTY MEASURE BB” augments the half-cent Measure B sales tax by a half-cent, beginning April 1, 2015 through March 31, 2022. The full one-cent sales tax authorized by Measure BB will begin April 1, 2022 and will extend through March 31, 2045.

- Add the word “or” to the section 3.2.a to reflect that the social services representative can either work for an agency physically located in the Tri-Valley or represent people of the Tri-Valley (not necessarily both):
  - Three members shall be representatives of social service agencies, which are located in and/or represent people who use or could use
transit services in Livermore, Pleasanton and Dublin, and ex-officio members from the connecting transit service providers.

**Recommendation**
Forward the recommendation to update the WAAC bylaws to LAVTA’s Board of Directors.

AGENDA

ITEM 7
SUBJECT: FY 2016 4th Quarter Report – Operations
FROM: Christy Wegener, Director of Planning & Communications
DATE: September 7, 2016

Action Requested
This is an informational item.

Background
This report is intended to provide the Committee with a summary and analysis of operations for the fourth quarter of FY2016 (April – June 2016) and FY2016 year-end summary.

Discussion
Paratransit
The graph below provides an overview of the historic paratransit ridership trend from the agency’s inception thru the fiscal year FY2016:

Annual Paratransit Ridership FY 1989-2016
Between the FY2015 and FY2016 the agency experienced a drastic 18% increase in the percentage of trips from 46,441 trips provided in FY2015 to 54,975 trips in FY2016 as the chart below illustrates:

![Total # of TRIPS](chart1.png)

Since the ridership had been growing at an alarming rate, the agency put into place a series of measures to manage the demand in 3rd quarter FY2016. These measures included capping subscription rides to 50% per agency policy, negotiating trip times, conducting in-person eligibility assessments, enforcing the late cancellation/no-show policy, and referring Pleasanton residents to the Pleasanton Paratransit service. The agency started seeing positive results of the above-mentioned measures in Q4 of 2016 when the number of trips decreased by 10% when comparing it to the Q3 of the same year. The number of trips decreased from 14,034 in Q3 down to 12,670 in Q4.

![Total # of TRIPS](chart2.png)

The FY2016 Q4 the total number of passengers served on paratransit, which includes personal care attendants (PCAs) and companions, decreased by 9.2% from 15,201 to down to 13,810 when compared to the same three months the year prior. The number of trips during the same time period decreased by 3% from 12,996 to 12,670, as the two charts below illustrate. Part of the reason why the reduction in the number of trips has not been as drastic as in the number of total passengers is that in FY2016, 54 of the trips were for the mandatory in-person ADA paratransit assessments, which was not part of the eligibility process a year ago. Additionally, the paratransit contractor had data inaccuracies that were corrected as of April 2016.
The on-time performance (OTP) for the FY 2016 Q4 was 95% compared to the 98% the year prior. While the OTP in has decreased by 3% it still meets the performance standard of 95%.

Customer Service
Customer Service staff processed a total of 162 customer requests for Q4 FY15 and a total of 121 for Q4 FY16; the decrease may be related to the service change outreach that provided other means for the community to provide feedback and ask questions other than the customer service database, i.e. route planning requests. LAVTA’s Service Quality Standards Index, a
measurement of performance for fixed route and paratransit service providers, tracks the number of valid complaints for both fixed route and paratransit service, as noted for the quarter in the chart below.

The SQSI’s established a standard of excellence for complaints of less than 1 per 10,000 rides for fixed route and 1 per 1,000 rides for paratransit.

Comparing the total valid complaints from FY15 and FY16, the number for fixed route has decreased and staff continues to work with the fixed route contractor in the Fixed Route Task
Force meetings held every other week, which allow for timely recognition of trends, and increased attention to the Customer Oversight Program which provides for assigning points to operators for valid complaints. The top valid complaints for fixed route for this quarter are in the areas of “late” (9 complaints), “safety” (4 complaints), and “early” (3 complaints).

The paratransit valid complaints increased by eight complaints as compared to the quarter last year. Staff and the contractor continue to work together in the Paratransit Task Force meetings to ensure that the complaints are dealt with timely, with ten (10) valid complaints total (five in the area of “late,” two “no show,” and two “driver/dispatcher courtesy/training” with the last complaint in the area of “maintenance”).
