SUBJECT: Resolution in Support of Application for Funding through the Metropolitan Transportation Commission Safe and Seamless Mobility Quick Strike Program for the LAVTA Passenger Facilities Enhancement Project

FROM: Jennifer Yeamans, Senior Grants & Management Specialist

DATE: May 3, 2021

Action Requested

The Finance and Administration Committee recommends the Board of Directors approve Resolution 13-2021 authorizing the filing of an application for funding assigned to the Metropolitan Transportation Commission (MTC) for the LAVTA Passenger Facilities Enhancements Project. This resolution is required to request this funding from MTC.

Background

In December 2020, the Alameda County Transportation Commission (CTC) announced a \$26 million Call for Projects for its 2022 Comprehensive Investment Program (CIP). The CIP programs a variety of local funding sources overseen by Alameda CTC, for which LAVTA submitted two proposed projects for consideration in February 2021: (1) a \$540,000 request to fund the completion of Bridging Documents for the Atlantis Operations & Maintenance (O&M) Facility; and (2) a \$2 million request for a Passenger Facilities Enhancements Project, which proposed significant capital improvements to improve the passenger experience at three high-ridership stops in LAVTA's service area: the East Dublin/Pleasanton BART station, Las Positas College, and Lawrence Livermore and Sandia National Labs. Improvements would include premium placemaking elements such as custom shelters, public art, enhanced lighting, high-quality real time information displays, premium and ample seating, trash cans, and bicycle facilities. In addition, the improvements at the East Dublin/Pleasanton BART station would support Phase 2 deployment of LAVTA's Shared Autonomous Vehicle (SAV) project by establishing a Mobility Hub for passengers transferring from BART or LAVTA services to the first/last mile connection serving nearby business parks not currently served by transit.

In the midst of Alameda CTC's 2022 CIP Call for Projects, in January 2021, MTC announced the \$54.4 million Safe and Seamless Mobility Quick Strike Program, a one-time, competitive grant program within the region's One Bay Area Grant program (OBAG 2) framework. The program makes available federal funding to assist with the region's pandemic recovery by providing low-cost, near-term deliverable enhancements to the transportation system to get transit out of traffic, enhance equitable mobility options, and make progress on initiatives stemming from the regional Blue Ribbon Transit Recovery Task Force. MTC assigned the region's nine County Transportation Agencies (CTAs), including

Alameda CTC, responsibility for nominating community-based projects within defined programming targets, including a total of \$9.8 million for Alameda County.

In March 2021, following consultation between Alameda CTC and LAVTA staff that LAVTA would be able to satisfy all federal requirements for the Quick Strike program, Alameda CTC advanced a list of \$15.1 million in proposed programming for 12 local projects that had been submitted as part of the 2022 CIP Call for Projects, including a \$2 million request for LAVTA's Passenger Facilities Enhancements Project. LAVTA's other CIP project, the Atlantis Facility Bridging Documents Project, was not recommended by Alameda CTC for nomination for the Quick Strike program, because that project was requesting funds for a non-construction phase (design-engineering) and would not meet MTC's requirement that funds for construction be obligated by September 2022. The Atlantis Bridging Documents project is still under consideration as part of Alameda CTC's 2022 CIP program development to be announced later this spring.

Discussion

While MTC is not expected to formalize programming of the Safe and Seamless Quick Strike program until June, preliminary project evaluations and prioritization presented to stakeholders (shown in Attachment 2) recommend \$2 million in funding for LAVTA's Passenger Facilities Enhancements Project based on Alameda CTC's nomination, out of \$49.4 million in funding recommended for a total of 40 projects across the region.

In order for the Passenger Facilities Enhancement Project to be approved as part of MTC's anticipated June 2021 programming action, LAVTA must provide a Resolution of Local Support (Attachment 1) no later than May 21, 2021. This resolution affirms LAVTA's ability to meet all federal requirements of the program, including a strict federal obligation deadline of September 30, 2022. LAVTA staff anticipates meeting the obligation deadline by requesting a transfer of CMAQ funds programmed by MTC when available from FHWA to FTA's 5307 program and having FTA obligate the funding in a grant, as has been done in the past for other regional discretionary STP/CMAQ funding programmed to LAVTA. While the process can be lengthy and will involve multiple agencies, LAVTA staff believes the timeline is feasible with MTC's support in fulfilling its necessary related programming actions (such as updating the TIP) in a timely manner.

Budget

The proposed project budget and schedule is as follows, pending confirmation of local match requirements from MTC. The budget includes funding for both design-engineering (PS&E) as well as construction, including equipment acquisition costs.

	<u>MTC</u>		<u>LAVTA</u>		<u>Total</u>	
	\$	%	\$	%	\$	%
PS&E	\$182,000	70%	\$78,000	30%	\$260,000	100%
Construction	\$1,818,000	70%	\$785,000	30%	\$2,603,000	100%
Grand Total	\$2,000,000	70%	\$863,000	30%	\$2,863,000	100%

Next Steps

Because the proposed node-based Passenger Facilities Enhancements Project complements the corridor-level Rapid Bus Stops Improvements Project proposed for allocation of available Regional Measure 2 funds (Agenda item 4.d.1), staff will consult with MTC on the feasibility of combining the two projects to the maximum extent possible in order to achieve cost-efficiencies in design-engineering and project-management effort while still satisfying the requirements of all fund sources involved.

Recommendation

The Finance and Administration Committee recommends the Board of Directors approve Resolution 13-2021, authorizing the filing of an application for funding assigned to the Metropolitan Transportation Commission (MTC) for the LAVTA Passenger Facilities Enhancements project. This resolution is required to request this funding from MTC.
