5. Formalizing Service to Emerald High School - Route 201

Staff shared the need to formalize service to Emerald High School Route 201 and provided a background summary of the pilot 201 service. Staff informed the Committee that LAVTAs Title VI Policy mandates that a public hearing must be held for the introduction of any new permanent route. Ridership data supports that Route 201 was deployed with the right resources and LAVTA is requesting to move forward with formalizing Route 201 with a public hearing at December 2024 Board of Directors meeting.

The item was discussed by the Projects and Services Committee and staff. The Committee discussed JEPA compliance.

The Projects and Services Committee forwarded a recommendation to the Board of Directors to set a public hearing to hear public comments regarding the formalization of Route 201.

Motion: Branning/Brown
Aye: Josey, Brown, Haubert, Branning
No: None
Abstain: None
Absent: None

6. Potential Summer 2025 Service Modifications

Staff presented a PowerPoint of potential summer 2025 service modifications to the Projects and Services Committee. One potential service modification would be realigning Route 10R to no longer serve downtown Pleasanton and extending Route 8 to mitigate downtown coverage impacts. The second potential service modification would be to have Route 10R serve East Avenue and both Routes 10R and 30R route through the Transit Center for ease of timed transfers. Staff will conduct onboard surveys on East Avenue and do further public outreach about the service modifications to receive feedback. LAVTA will return to the Committee in early winter with an updated proposal.

The item was discussed by the Projects and Services Committee and staff. The Committee requested an overlay of 10R on Kottinger Drive for the Senior Community, pull 10R ridership data for Paratransit that could use fixed route service, and keep Rapid Routes rapid and local routes local. The Committee also would like LAVTA to reach out to Lawrence Livermore National Laboratory and Sandia about the service modifications.

This was informational only.
