**SUBJECT:** Alameda County Transportation Commission Measure BB / Vehicle Registration Fee Ten-Year Master Programs Funding Agreement

**FROM:** Jennifer Yeamans, Senior Grants & Management Specialist

**DATE:** April 6, 2026

---

**Action Requested**

The Finance and Administration Committee recommends that the Board of Directors approve Resolution 13-2026 authorizing the Executive Director to execute a new Master Programs Funding Agreement (MPFA) with the Alameda County Transportation Commission to receive funds from Measure BB and County Vehicle Registration Fees for the 10-year period from July 1, 2026, through June 30, 2036.

**Background**

In November 2010, Alameda County voters approved Measure F, the Vehicle Registration Fee (“VRF”) program, authorizing the Alameda County Transportation Commission (Alameda CTC) to administer a \$10 per year vehicle registration fee to be used exclusively for local transportation purposes identified in the Measure F expenditure plan approved by voters.

In November 2014, Alameda County voters approved Measure BB, authorizing Alameda CTC to administer the proceeds from a half-cent sales tax applicable from April 1, 2015, through March 31, 2022, and a full one percent tax applicable from April 1, 2022, through March 31, 2045. Proceeds pay for investments outlined in Alameda County’s 30-Year Transportation Expenditure Plan, including annual Direct Local Distributions (DLDs) to local agencies, which include annual allocations to LAVTA for mass transit and paratransit purposes. Measure BB has now fully replaced 2000’s Measure B, which sunset permanently in 2022.

In 2016, Alameda CTC entered into 10-year Master Funding Agreements with local agencies including LAVTA in 2016 for Measure B, Measure BB, and VRF funds, which will expire June 30, 2026.

**Discussion**

As LAVTA has no remaining Measure B DLD balances to expend, Alameda CTC’s new 10-year funding agreement will include only Measure BB and VRF funding going forward. DLDs are determined by formulas established in the voter-approved Transportation Expenditure Plan, as shown in Exhibit A of Attachment 2. LAVTA must approve the MPFA in order to continue to receive DLD funds from Alameda CTC.

DLD recipients are required through the MPFAs to adhere to certain requirements, including timely use of funds policies and applicable reporting for program compliance and performance

monitoring. Applicable performance measures to LAVTA’s transit and paratransit programs are shown in Exhibit B of Attachment 2 and include:

<b>Program</b>	<b>Performance Measures</b>
Mass Transit	<ul style="list-style-type: none"> <li>• Annual unlinked trips</li> <li>• On-time performance</li> <li>• Operating cost per passenger-mile</li> <li>• Operating cost per vehicle-revenue-mile</li> </ul>
Paratransit	<ul style="list-style-type: none"> <li>• Number of individuals served or trips provided by program</li> <li>• Cost per trip or per passenger</li> </ul>

**Fiscal Impact**

Annual DLD allocations are included in the agency’s annual budget and vary depending on actual revenues collected. Alameda CTC’s projected FY25-26 DLDs to LAVTA which are incorporated into the agency’s budget are:

<b>Program</b>	<b>Amount</b>
Paratransit	\$905,747
Mass Transit	\$1,855,656
<b>Total</b>	<b>\$2,761,403</b>

**Next Steps**

Upon approval by the Board and with concurrence by Legal Counsel, the Executive Director will execute the new 10-year Master Programs Funding Agreement with Alameda CTC to take effect July 1, 2026.

**Recommendation**

The Finance and Administration Committee recommends that the Board of Directors approve Resolution 13-2026 authorizing the Executive Director to execute a new Master Programs Funding Agreement with Alameda County Transportation Commission, to receive funds from Measure BB and County Vehicle Registration Fees for the 10-year period from July 1, 2026, through June 30, 2036.

**Strategic Plan Goals**

Organizational and financial management: Produce a balanced budget every year.

**MEASURE BB / VEHICLE REGISTRATION FEE  
MASTER PROGRAMS FUNDING AGREEMENT  
between the  
ALAMEDA COUNTY TRANSPORTATION COMMISSION  
and the  
LIVERMORE AMADOR VALLEY TRANSIT AUTHORITY**

This Measure BB / Vehicle Registration Fee Master Programs Funding Agreement (“AGREEMENT”), effective the 1<sup>st</sup> of July 1, 2026, is entered into by and between the Alameda County Transportation Commission (“ALAMEDA CTC”) and the Livermore Amador Valley Transit Authority (“RECIPIENT”).

**RECITALS**

A. On November 2, 2010, the voters of Alameda County approved Measure F, the Vehicle Registration Fee (“VRF”) Program, pursuant to Section 65089.20 of the Government Code, thereby authorizing the Alameda County Congestion Management Agency (“ACCMA”) to administer the proceeds from a \$10 per year vehicle registration fee on each annual motor-vehicle registration or renewal of registration in Alameda County, starting in May 2011, six months following approval of Measure F. Vehicles subject to the VRF include all motorized vehicles, including passenger cars, light-duty trucks, medium-duty trucks, heavy-duty trucks, buses of all sizes, motorcycles, and motorized camper homes, unless vehicles are expressly exempted from the payment of the VRF.

B. Funds raised by the VRF will be used exclusively for local transportation purposes in Alameda County that have a relationship or benefit to the owners of motor vehicles paying the VRF, including projects and programs identified in the expenditure plan approved by the voters as part of Measure F (the “VRF Expenditure Plan”).

C. On June 24, 2010, the Alameda County Transportation Improvement Authority (“ACTIA”) and ACCMA took the final actions to create ALAMEDA CTC, a joint powers authority, with all of ACTIA and ACCMA’s functions and responsibilities. Pursuant to resolutions adopted by the ACCMA and ACTIA Boards and the governing body of the ALAMEDA CTC (COMMISSION”), ACCMA and ACTIA were terminated as of the close of business on February 29, 2012, with ALAMEDA CTC designated as the successor entity. All of its predecessors’ functions and responsibilities have been assigned to, and accepted by, ALAMEDA CTC, including duties related to the VRF Program.

D. On November 4, 2014, the voters of Alameda County, pursuant to the Local Transportation Authority and Improvement Act, California Public Utilities Code Section 180000 *et seq.*, approved Measure BB, thereby authorizing ALAMEDA CTC to administer the proceeds from a one-half of one percent transaction and use tax applicable from April 1, 2015 through March 31, 2022, and a full one percent tax applicable from April 1, 2022 through March 31, 2045. The tax proceeds will be used to pay for the investments outlined in Alameda County’s 30-Year Transportation Expenditure Plan (“Measure BB Expenditure Plan”), as it may be amended.

E. This AGREEMENT delineates the requirements of the Measure BB and VRF Direct Local Distribution (“DLD”) funds that are directly allocated to local jurisdictions and transit operators, as authorized by the VRF Expenditure Plan, and the Measure BB Expenditure Plan. Discretionary funds identified in these

expenditure plans are not the subject of this AGREEMENT, and RECIPIENT will be required to enter into a separate agreement for those funds.

F. The parties to this AGREEMENT previously entered into a Master Programs Funding Agreement applicable to DLD funds distributed by ALAMEDA CTC, which expires as of June 30, 2026 (“ORIGINAL AGREEMENT”). This AGREEMENT is generally consistent with the ORIGINAL AGREEMENT, but the parties have determined that it is appropriate to enter into a new agreement rather than extending the ORIGINAL AGREEMENT.

G. This AGREEMENT was originally approved by the COMMISSION on February 26, 2026.

NOW, THEREFORE, it is mutually agreed by and between the parties as follows:

## ARTICLE I: FUNDING ALLOCATIONS

### **A. ALAMEDA CTC'S DUTIES AND OBLIGATIONS**

5. Within five working days of actual receipt of the monthly Measure BB sales tax revenues and VRF revenues from the California Department of Tax and Fee Administration, the bond trustee, or the California Department of Motor Vehicles, Alameda CTC shall remit to the RECIPIENT its designated amount of available DLD funds disbursed on a monthly basis by the formulas described above.

6. ALAMEDA CTC shall annually update Measure BB and VRF fund revenue projections and the resulting fund allocation formulas to reflect the most current population using the California Department of Finance's annual population estimates (Report E-1 published in May); maintained road mileage from the California Department of Transportation; and the number of registered vehicles in each Alameda County subarea, using registered vehicle data provided by the California Department of Motor Vehicles, as it is made available. ALAMEDA CTC shall use the updated Measure BB and VRF program allocation formulas in the allocations beginning July 1 of each new fiscal year, which is from July 1 to June 30.

STAFF REPORT

SUBJECT: Approval of Resolutions Authorizing Staff to Apply for TDA, STA, RM2 and RM3 funds for Fiscal Year 2026-2027

FROM: Tamara Edwards, Director of Finance

DATE: April 6, 2026

**Action Requested**

Review and approve the following Resolutions:

1. Resolution 14-2026 of the Board of Directors of the Livermore Amador Valley Transit Authority authorizing the filing of a claim with the Metropolitan Transportation Commission (MTC) for Allocation of Transportation Development Act (TDA) Article 4.0, State Transit Assistance (STA), Regional Measure 2 (RM 2), and Regional Measure 3 (RM3) for Fiscal Year 2026-2027
2. Resolution 15-2026 of the Board of Directors of the Livermore Amador Valley Transit Authority Authorizing the filing of a claim with the Metropolitan Transportation Commission for Allocation of Transportation Development Act Article 4.5 Funds for the Fiscal Year 2026-2027

These resolutions authorize staff to file applications with the MTC for the 2026-2027 Fiscal Year.

**Background**

Attached for review and approval are the annual resolutions authorizing LAVTA’s Executive Director (or designee) to file a claim with MTC for TDA Article 4.0, 4.5, and STA funds for Fiscal Year 2026-2027. These resolutions are required as part of MTC’s annual claim submittal. The funds requested in the claim are limited to the amount allocated to LAVTA, based on a prescribed apportionment formula. On an annual basis, LAVTA is required to resolve support for the submission of applications for Regional Measure 2 and Regional Measure 3 operating assistance in connection with providing service to the BRT service. MTC has advised LAVTA that the inclusion of provisions relevant to RM2 and RM3 can be included in the TDA and STA resolutions for ease of submission.

**Discussion**

Attached to this report is the MTC staff report which accompanied their estimate and gives background information on the various funding sources and the bases for this year’s estimates.

**Budget Considerations**

The next step will be to prepare a detailed capital and operating budget within the available revenues.

**Recommendation**

The Finance and Administration Committee recommends that the Board of Directors approve the Resolution 14-2026 and Resolution 15-2026 authorizing the filing of a claim with MTC for Allocation of TDA Article 4.0, 4.5, STA, RM2, and RM3 Funds for Fiscal Year 2026-2027.

**Strategic Plan Goal:**

Organizational and Financial Management: Produce a Balanced Budget every year.

Programming and Allocations Committee**

February 11, 2026

Agenda Item 3a-26-0107

**MTC Resolution No. 4742. FY 2026-27 MTC Fund Estimate**

---

**Subject:**

Annual Fund Estimate and proposed apportionment and distribution of approximately \$1 billion in Transportation Development Act (TDA) Local Transportation Fund, State Transit Assistance (STA), State of Good Repair (SGR) Program, Assembly Bill 1107 (AB 1107), transit-related bridge toll, Low Carbon Transit Operations Program (LCTOP) funds, and Senate Bill (SB) 125 funds for transit operating assistance for FY 2026-27.

**Background:**

MTC is required by state statute to prepare and adopt an annual fund estimate of TDA Local Transportation Fund (LTF) ¼ cent sales tax revenues for the upcoming fiscal year by March 1st. This estimate assists the Bay Area's transit operators in budgeting for the next fiscal year, in this case FY 2026-27. The fund estimate prepared by MTC also includes several other fund sources which MTC allocates to transit operators, primarily for operations.

**Economic Overview**

Several economic indicators show that the Bay Area economy experienced either a plateau or minor decline in 2025. Unemployment rates ticked up in all counties except Alameda and San Francisco, which remained flat at 4.6% and declined to 3.9% respectively. Unemployment rates in all nine counties remain below the statewide rate, with four counties above the national rate. While there has been much improvement in employment since the pandemic, neither the labor force nor employment levels have returned to pre-pandemic levels in 2019. The regional population tracked with the state, increasing slightly in 2025 by less than 1%, while the statewide population grew by slightly above 1%.

**Transportation Development Act (TDA)**

State law requires county auditors to submit annual estimates of the ¼-cent TDA sales tax revenue generation to MTC by February 1st. A summary of the county auditors' mid-year estimates indicate that regional TDA revenue generation is expected to increase by 2% relative to original estimates for the current year of FY 2025-26, to \$493 million. The impacts vary across counties. While little change is estimated for Napa, Marin, and Solano counties, the Alameda County Auditor estimated a 12% increase for Alameda County, in part due to greater sales tax revenue generation performance in the first six months of the fiscal year.

County Auditor Offices forecast a subsequent increase of 2.6% in FY 2026-27 TDA revenues, to \$506 million. The revised revenue estimates for FY2025-26 and forecasted revenue for FY2026-27 are summarized in the following table:

TDA Revenue Estimates

County	FY2025-26 (Revised)	FY2026-27	FY2026-27 Change vs FY2025-26
Alameda	\$101.5	\$102.6	1.1%
Contra Costa	\$56.1	\$58.6	4.5%
Marin	\$17.1	\$17.3	1.2%
Napa	\$11.4	\$11.7	2.6%
San Francisco	\$48.0	\$49.0	2.1%

**Assembly Bill 1107 (AB 1107)**

A portion (25%) of BART's half-cent sales tax revenue generated in Alameda, Contra Costa, and San Francisco counties is administered by MTC, and MTC staff is responsible for estimating the annual revenue generation. Based on actual performance to date along with sales tax projections from county auditor offices, staff proposes to retain the \$104 million estimate for FY 2025-26 and increase slightly to \$105 million in FY 2026-27. This amount would be split evenly between SFMTA and AC Transit per longstanding Commission practice.

**State Transit Assistance (STA)**

The State Controller's Office estimates \$717 million in STA diesel sales tax funds will be available statewide in FY 2026-27. Based on this estimate, the Bay Area would receive approximately \$261 million (\$192 million in Revenue-Based and \$70 million in Population-Based) in FY 2026-27 STA funds, representing an approximate 10% decrease from FY 2025-26 estimates.

While the Fund Estimate will reflect the latest available information from the State Controller's Office (SCO) for the current year (FY 2025-26) estimates, the Governor's Proposed FY 2026-27 budget forecasts a slight increase in FY 2025-26 STA revenues by roughly 1%, which translates to \$1.6 million more than the original estimate. Staff will return to the Commission to update the estimates following the state budget approval later this year.

**State of Good Repair (SGR) Program**

Senate Bill (SB) 1 established the State of Good Repair (SGR) Program which will bring \$51.3 million to the Bay Area in FY 2026-27 for transit capital state of good repair projects. The funds from the SGR Program follow the same state-wide distribution policies as the regular STA program, with a Revenue-Based and Population-Based program.

**Programming and Allocations Committee****Agenda Item 3a-26-0107****February 11, 2026****Page 3 of 4****Bridge Tolls**

In April 2010, MTC Resolution No. 3948 resulted in a lump sum payment from BATA to MTC for an amount equal to the 50-year present value of AB 664, RM 1, and 2% Toll revenue. Future payments from these toll revenues will be made from this lump sum, in accordance with Commission policies established in MTC Resolution Nos. 4015 and 4022.

**Cap and Trade – Low Carbon Transit Operations Program (LCTOP)**

The FY 2026-27 Fund Estimate includes details on funding that will flow to the region through the Low Carbon Transit Operations Program, which is a component of the state Cap and Trade program. In FY 2026-27, the region is projected to receive \$52.0 million from the program based on an estimate from Governor Newsom’s proposed FY 2025-26 State Budget. Apportionments of these funds are guided by Caltrans policies for the Revenue-Based program (which are the same as the STA Revenue-Based program) and by the MTC Commission for the Population-Based program through the MTC Cap and Trade Framework (MTC Resolution No. 4130, Revised).

**Senate Bill 125 (SB 125) Transit Funding**

In November 2023, the Commission adopted MTC Resolution No. 4619 which established a distribution framework for SB 125 operations funding from the Transit and Intercity Rail Capital Program (TIRCP) and the Zero-Emission Transit Capital Program (ZETCP). These funds are complemented by \$300 million in regional funds, which the Commission directed to operators in November 2024 through MTC Resolution No. 4619. At the conclusion of FY2025-26, SB 125 funding for operations was fully allocated, leaving roughly \$1 million remaining for MTC planning and implementation. MTC will work with BART and VTA to assess cash flow needs for the BART Core Capacity and BART to Silicon Valley Phase II projects, respectively, and will establish an allocation timeline in summer 2026.

**Issues:**

- 1) STA Revenue-Based Formula – Half of the statewide STA Revenues are distributed through a formula using each operator’s share of qualifying revenues (i.e., fares, local taxes, other operating revenues). This formula has been frozen through an amendment to the Public Utilities code since the onset of the pandemic to mitigate the impacts the pandemic has had on transit revenues. Though the revenue estimates for FY2026-27 provided by the State Controller’s Office in January maintain the frozen formula, the “hold harmless” provision is scheduled to expire at the end of FY 2025-26. If the “hold harmless” provision is not extended before June 30<sup>th</sup>, 2026, the qualifying revenue formula will be unfrozen, and the revenue distribution will be revised in August to include to include new qualifying revenue from FY2024-25.

Staff have advocated for an extension of this provision due to the impacts on transit operators in the region; however, the Governor’s proposed budget does not indicate

that this “hold harmless” provision will be extended into FY2026-27. While there will be a mix of increases and decreases in funding levels for different operators in the region, AC Transit, BART, and SFMTA are projected to see significant reductions in funding. The impact to these operators is most significant due to their heavy pre-pandemic reliance on STA qualifying revenue including fares, general fund, and parking revenues, all of which declined dramatically during the pandemic and have yet to recover.

The impact of the expiration of the provisions will be mirrored across the two other revenue-based Senate Bill 1 funding programs.

- 2) BART Feeder Bus Agreement – A 1997 agreement between MTC, BART, and four East Bay bus operators (County Connection, LAVTA, Tri-Delta, and WestCAT) established a funding mechanism for BART to support feeder bus operators using BART’s STA Revenue-Based and TDA sales tax funds. Initial payment amounts were established by transition agreements, and subsequent payments over the last 25 years have been calculated based on growth of AB 1107 ½-cent sales tax revenues. BART had communicated an interest in amending the agreement before the pandemic and later expressed greater urgency given its looming fiscal cliff. BART staff have indicated that FY 2025-26 is the last year that BART will be able to support feeder bus services.

MTC staff, in coordination with the affected feeder bus operators, are working on a proposal to provide temporary funding for feeder services in FY2026-27 using Regional Measure 3 (RM3) Operating funds available from prior year program revenues that were accrued but not disbursed when RM3 was under legal challenge. RM3 programming levels are expected to be presented to the Commission for approval in May.

STAFF REPORT

SUBJECT: Resolution in Support of Allocation Requests for FY 2025-26 Funding through the State Low Carbon Transit Operations Program (LCTOP)

FROM: Jennifer Yeamans, Senior Grants & Management Specialist

DATE: April 6, 2026

---

**Action Requested**

The Finance and Administration Committee recommends that the Board of Directors approve Resolution 16-2026 in support of two allocation requests to Caltrans for the FY 2025-26 Low Carbon Transit Operations Program (LCTOP) to fund two high-priority capital projects. This resolution is required to request allocations of these funds from Caltrans.

**Background**

The LCTOP was established in 2014 by California Senate Bill 862 to provide funding, on a formula basis, for operational or capital expansion projects to reduce greenhouse gas emissions and improve mobility, with a priority on serving disadvantaged communities. Revenues are derived from quarterly statewide cap-and-trade auctions of allowances for greenhouse gas emissions, which generate the Greenhouse Gas Reduction Fund which is then reinvested in various projects to further reduce emissions. There is a continuous appropriation of 5 percent of auction proceeds into the LCTOP and other Cap and Trade programs. The original Cap and Trade program was authorized through 2030 and funded from market-based sales of emissions allowances statewide. Last year the Legislature re-authorized the market-based compliance mechanisms for greenhouse-gas reduction, resulting in a new “Cap-and-Invest” framework that offers a different revenue flow down from auction proceeds to fund the LCTOP.

The program guidelines state that transit agencies receiving funds from the LCTOP shall submit expenditure proposals listing projects that meet any of the following criteria:

- Expenditures that directly enhance or expand transit service by supporting new or expanded services, expanded intermodal facilities, and include equipment acquisition, fueling, and maintenance, and other costs to operate those services or facilities.
- Operational expenditures that increase transit mode share.
- Expenditures related to the purchase of zero-emission buses (ZEBs), including electric buses, and the installation of the necessary equipment and infrastructure to operate and support zero-emission buses.

The LCTOP requires documentation that each proposed project will achieve a reduction in greenhouse gas emissions and will not supplant other sources of funds. In addition, project sponsors are required to document how their projects meet all program requirements related to benefits to Disadvantaged Communities (DACs) and AB 1550 Population requirements to benefit low-income communities.

**Discussion**

LCTOP funds are continuously appropriated and allocated to transit operators by formula for eligible projects, and to regional transportation agencies such as the Metropolitan Transportation Commission for regional priorities. Under LCTOP guidelines, LAVTA can accrue up to four years of funding to support larger eligible capital projects. The past two years, LAVTA has been rolling over its annual LCTOP allocation to help provide the local match needed for the Atlantis Facility Construction project. This year’s allocation request will be rollover year 3 of 4 of that effort.

Also this year, MTC conducted a competitive process to program approximately \$8 million in regional LCTOP funds for projects that advance Transit Priority Initiatives in key regional transit corridors. LAVTA applied for funding in January jointly with the City of Dublin to reconstruct the traffic circle on Golden Gate Drive in Dublin at the exit of the West Dublin/Pleasanton BART station to allow for assignment of 40-foot buses on the Route 30R, LAVTA’s highest-ridership route (see Attachment 2). Since the 2016 Comprehensive Operations Analysis realigned the original Rapid, LAVTA has only been able to assign 29- and 35-foot buses to the Route 30R due to the extent of the existing circle (as shown in Attachment 2), so the project will enhance station-access capacity for BART and all along LAVTA’s highest-ridership corridor, which can experience crowding at peak times. Staff were notified on March 16 that LAVTA’s application would be recommended for funding from MTC’s regional allocation in April. To receive the allocation recommended by MTC, LAVTA will apply directly to Caltrans.

Due to the new Cap-and-Invest framework authorized by the Legislature last year, this year's LCTOP allocation process is split between two separate funding cycles known as Cycle A, taking place now, and Cycle B, to take place starting this summer. LAVTA intends to submit two LCTOP allocation requests in Cycle A for the following priority projects:

	<b>Project</b>	<b>Description</b>	<b>FY25-26 LCTOP Funding (Cycle A)</b>
1	Atlantis Facility Construction	Year 3 of a four-year rollover project contributing serving as a portion of the 25% local match to the 2025 federal Low No award	\$431,259
2	West Dublin/Pleasanton BART Station Transit Access Capacity Improvements	Competitive regional funding scheduled to be awarded by the Metropolitan Transportation Commission in April to modify the West Dublin/Pleasanton BART station exit at Golden Gate Drive to allow LAVTA to assign larger buses to the 30R.	\$249,000

LAVTA’s service area does not have any DACs, but the projects are expected to benefit low-income households and the low-income communities of North Livermore and Springtown identified by AB 1550 (shown in Attachment 3) by reducing harmful emissions of diesel particulate matter by enabling LAVTA to replace its diesel-fueled fleet with zero-emission buses supported by the Atlantis facility, and by adding transit access capacity at the West Dublin/Pleasanton BART station for the North Livermore community served by the 30R.

**Fiscal Impact**

FY25-26 LCTOP Cycle A funding is expected to be available in October 2026 and will be included in the FY27 capital budget.

**Next Steps**

Once approved by the Board of Directors, LAVTA staff will submit the Resolution to Caltrans with the allocation requests for the above projects by the April 28 due date.

**Recommendation**

The Finance and Administration Committee recommends the Board of Directors approve Resolution 16-2026 in support of two allocation requests to Caltrans for the FY 2025-26 Low Carbon Transit Operations Program (LCTOP) Cycle A for two high-priority capital projects.

**Strategic Plan Goals**

Operational Effectiveness: Develop and implement a capital improvement plan identifying major projects and their timeframe for implementation.

Operational Effectiveness: Identify and implement improvements to bus operations by implementing transit signal priority and other improvements.

The April 2026 Consumer Price Index for the San Francisco area is scheduled to be released on May 12, 2026.

**Technical Note**

The [Consumer Price Index](#) (CPI) is a measure of the average change in prices over time in a fixed market basket of goods and services. The Consumer Price Index for San Francisco is published bi-monthly. The set of components and sub-aggregates published for regional and metropolitan indexes is more limited than at the U.S. city average level; these indexes are byproducts of the national CPI program. Each local index has a much smaller sample size than the national or regional indexes and is, therefore, subject to substantially more sampling and other measurement error. As a result, local-area indexes are more volatile than the national or regional indexes. In addition, local indexes are not adjusted for seasonal influences. **NOTE: Area indexes do not measure differences in the level of prices between cities; they only measure the average change in prices for each area since the base period.**

A full all-items data series history for the original index value and for 1-month, 2-month, 3-month, 6-month, and 12-month percent changes can be accessed via BLS data query tools. A direct link to the all-items series is provided in Table 1 of this release under historical data.

The San Francisco-Oakland-Hayward, CA. metropolitan area covered in this release is comprised of Alameda, Contra Costa, Marin, San Francisco, San Mateo Counties in the State of California.

STAFF REPORT

SUBJECT: Approval of Route 74: Shuttle to the City of Livermore's Fourth of July Celebration

FROM: Michael Tobin, Director of Operations & Planning

DATE: April 6, 2026

---

**Action Requested**

The Projects and Services Committee recommends that the Board approve the operation of Route 74, which will provide service to/from Las Positas College and the Livermore Municipal Airport during the City of Livermore's Fourth of July Celebration.

**Background and Discussion**

For the past several years, the City of Livermore has hosted a large Independence Day celebration at the Livermore Municipal Airport that attracts thousands of attendees from throughout the Tri-Valley region and beyond. Due to the limited parking capacity at the airport and the significant traffic congestion associated with the event, the City has requested LAVTA's assistance in providing shuttle service to help transport attendees between remote parking areas and the event site.

In response to this request, staff developed a plan for temporary shuttle service designated as Route 74 that would operate between Las Positas College and the Livermore Municipal Airport during the event. Las Positas College is providing satellite parking lots for attendees. The shuttle would operate from 9:00 a.m. to 1:00 p.m., transporting passengers from Las Positas College to the airport event site. Buses would board and alight passengers on Terminal Circle, which has been identified as a safe and accessible location for passenger loading.

To help ensure safe and orderly operations, LAVTA will station a field supervisor at the Terminal Circle stop, as well as Las Positas, to assist with passenger management, coordinate bus movements, and address any operational issues that may arise during the event, including unexpected overcrowding.

The proposed shuttle service will help reduce congestion around the event site, provide an alternative to driving directly to the airport, build ridership on Wheels, and support the City of Livermore's efforts to manage transportation for the July 4th celebration.

Staff will coordinate closely with the City of Livermore and event organizers to ensure that service operates safely and efficiently, as well as is marketed throughout the Tri-Valley.

**Fiscal Impact**

The cost of operating Route 74 is approximately 12 revenue hours and is included in the FY27 operating budget.

The City of Livermore will sponsor passenger fares for the Route 74 shuttle service.

**Recommendation**

The Projects and Services Committee recommends that the Board approve the operation of Route 74, which will provide service to/from Las Positas College and the Livermore Municipal Airport during the City of Livermore's Fourth of July Celebration.

**Strategic Plan Goals**

Service Development: Develop and implement new services to support high priority transit markets.

Advocacy and Partnerships: Continue to build and grow relationships with adjacent cities and counties, and State and Federal delegations.
